CULTURAL AND ARTS ENTREPRENEURSHIP IN ADULT EDUCATION

1. Module 2 Session 7: Debriefing Questions

1.1 Introduction:

The following debriefing/self-reflection questions are provided for this module to support educators to assess why it is important to use visualisation techniques to build the critical and creative thinking abilities of migrants to develop their entrepreneurial skills.

1. What are the challenges associated with groupthink and how can you mitigate against this occurring in your classroom?
2. Becoming an entrepreneur requires grit and determination, perseverance, assertiveness and confidence. Why is it important to ensure that entrepreneurs use visualisation techniques in order to become more successful?
3. Differentiate between the perceived and actual benefits of using visualisation techniques when working with a diverse group of learners who are interested in developing their entrepreneurial skills.
4. What associations can be made between different visualisation techniques discussed in this module?
5. Why is it crucial that migrant learners be presented with various types of visualisation techniques for their personal and professional lives?
